Your Place in History Rewards Program

A thank you for re-enrolling your 5k-7th grade student.

Trinity's school ministry has a long and storied history, with thousands of graduates over nearly two centuries making a positive impact in the world. We are delighted that your child is a part of that history, and so we are pleased to announce a new benefit for our tuition paying families: the Your Place in History Rewards Program.

Here is how it works. Each year when you re-enroll your child for the next school year, that student's rewards account will be credited with \$50. At that time, you will have the opportunity to direct your credit towards future tuition, to a designated ministry close to your heart, or you can simply let the rewards accumulate.

And why would you let it accumulate? Because upon graduation, Trinity will celebrate your child taking his or her place in the long history of Trinity graduates by **doubling the value** of those rewards!

That doubled credit can still be used for a sibling's tuition at Trinity or as a donation to a Trinity ministry close to your heart. But it can also be applied towards the tuition for your student to attend any LCMS High School, such as Living Word, Milwaukee Lutheran, Lake Country, or Sheboygan Lutheran.

That means that if your child is currently re-enrolling for 1st grade (Trinity class of 2026), he or she could have an \$800 credit available at graduation. What a great way to celebrate the special place in history you have at Trinity!

The Fine Print:

- This program is available for students who are re-enrolling at Trinity and entering **grades 1 through 8**. If you are re-enrolling for Kindergarten, make sure you ask about our generous transition credit.
- This program is available to families paying full tuition. We are sorry that we are unable to provide this benefit to students receiving financial aid, either from Trinity or through the Choice program.
- All tuition, lunch, and athletic balances must be current for the rewards credit to be issued or directed.
- The window for directing your rewards credit will be open until June 30 of any given school year. Any credit remaining in the account on July 1st will be automatically be rolled over for use in a future year.
